Baby receiving malaria treatment at the clinic

During the transition period from the rainy season to the dry season, many folks are affected by the weather. It is not uncommon to find many cases of malaria, and other malaise. However, we are grateful to God for the clinic and the medical staff. Thank you so much for all you are doing to keep us healthy. We really appreciate everything.

AUDREY WAS AMONGST OUR NEW COMMERS TO SCHOOL THIS YEAR

Audrey is 3 years old and ever since she started walking she used to come to school exactly when its lunch time to eat. The cooks had included her in the meals. On the first day of school this year, she picked up an old board and came to school. She was received warmly by all the teachers and she made her way straight to class although she found it a bit difficult to climb up the veranda. When her mother leaves the house early to go to the farm, Audrey also leaves for school, it took some time for her mother to realize that Audrey was a pupil at MSH. Her love for school and her enthusiasm to be a part of Mission School Hope has been news in school for some weeks now.

Our hope is that you and your church group can help us by sponsoring a pupil (child) every month at \$35 per month or \$420 a year. The money will enable us pay teachers, finish the school building, feed the children while they attend school and purchase supplies for the school. Thank you for your partnership in this valuable work.

Thank You
